## BriLux 1W Emitter BTP-87XXCG-XX-X/X

## Features

- Highest Lumen Per Watt
- Long Operational Life
- White or Black Housing
- Superior ESD Protection
- Instant Light (less than 100ns)
- Compatible to Luxeon's "Batwing"

## Applications

- Accent Light/Down Light/Spot Light

## Package Dimension

- Automotive Exterior/Interior Light
- Large Area LCD Backlights

- Reading Light
- Marine/Miner's Lighting
- Portable Flashlight/ General Lighting

Notes:

1) Picture for illustration purpose only. Please refer to outline dimension for actual package size.
2) Flux is measured with the accuracy of $\pm 15 \%$. Please refer to Flux Selection Guide
3) CCT is measured with the accuracy of $\pm 400 \mathrm{~K}$. Please refer to CCT Selection Guide
4) $\quad V_{F}$ is measured with the accuracy of $\pm 0.15 \mathrm{~V}$. Please refer to $V_{F}$ Selection Guide

## Application Notes:

1. Proper forward current must be observed to maintain the junction temperature below maximum rating
2. Although all products listed are class one ESD protection (+/- 2 KV by HBM mode), care must be fully taken when handling products
3. Specification is subjected to change for improvements without notice.
4. Test conditions: $\mathrm{tp} \leq 10 \mathrm{us}$, duty cycle $=0.005$
5. CAUTION: When lighting up, the emitter will become very hot if it is not attached to a heat sink. Please provide proper heat management to prevent damage to the emitter.

## WARNING

This range of LEDs is produced with die having a high radiant flux.

Note: Industry standard procedures regarding static must be observed when handling this product.

- Brilliance Technologies continually improves the quality of our products. Nevertheless, semiconductor devices in general can malfunction or fail due to their inherent electrical sensitivity and vulnerability to physical stress. It is the responsible of the customer, when using Brilliance Technologies products, to comply with the standard of safety in making a safe design for the entire system, and to avoid situations in which a malfunction or failure of such Brilliance Technologies products cause loss of human life, bodily injury or damage to property.
- Brilliance Technologies products listed in this data sheet are intended for usage in general electronics and/or non-commercial or industrial lighting products. These products are neither intended nor warranted for usage in equipment that requires extraordinarily high quality and/or reliability or a malfunction or failure of which may cause loss of human life or bodily injury.
- In developing your design, please ensure that Brilliance Technologies products are used within specified operating ranges as set forth in the most recent Brilliance Technologies data sheets.
