## LA7161NV — Monolithic Linear IC VHF Band RF Modulator (Supports US 3, 4ch, JPN 1, 2ch, TWN 13ch)

### Overview

The LA7161NV is VHF band RF modules that support channels 3 and 4 in the US, channels 1 and 2 in Japan, and channel 13 in Taiwan.

### Function

- RF VCO
- RF mixer
- RF buffer
- Video clamp
- White clipping
- FM audio demodulator
- 4V regulator
- Reference oscillator

### Package Dimensions

unit : mm

3178A

- Any and all SANYO products described or contained herein do not have specifications that can handle applications that require extremely high levels of reliability, such as life-support systems, aircraft's control systems, or other applications whose failure can be reasonably expected to result in serious physical and/or material damage. Consult with your SANYO representative nearest you before using any SANYO products described or contained herein in such applications.
- SANYO assumes no responsibility for equipment failures that result from using products at values that exceed, even momentarily, rated values (such as maximum ratings, operating condition ranges, or other parameters) listed in products specifications of any and all SANYO products described or contained herein.
